RE: Administrative Order on Consent Docket Number CWA-02-2015-3102 –
Compliance with AOC Section VII, ¶71

Dear Jose:

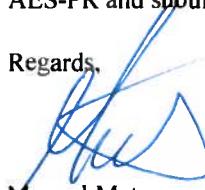

On March 18, 2015 AES Puerto Rico LP ("AES-PR") and the United States Environmental Protection Agency ("EPA") entered into the above referenced Administrative Order on Consent ("AOC"), under which AES-PR is obligated to comply with certain requirements (AOC Section VII, Ordered Provisions). All capitalized terms in this letter shall have the meaning as defined in the AOC.

Under AOC Section VII ¶71, within thirty (30) calendar days of the Effective Date of this Order, Respondent shall prepare and submit the comprehensive site inspection reports pursuant to Part 4.3.2 of the MSGP for the December 13, 2012 comprehensive site inspection.

In compliance with the new AOC requirement, AES-PR hereby submits the required Comprehensive Annual Site Inspection as attachments to this letter.

Please note that AES-PR is submitting these forms two days after signing the AOC, well in advance of the required deadline. We respectfully ask EPA to advise AES-PR promptly, should the agency have any concerns with this submission. Should AES-PR not receive any timely comments from EPA, we will reasonably consider that EPA has agreed that AES-PR has satisfied this requirement of AOC Section VII, ¶71 in full. Should EPA require additional time to review and provide comments back to AES-PR, that review time is of course entirely beyond the control of AES-PR and should be added to the required time frame for AES-PR to comply with this requirement.

Regards,

Manuel Mata
President AES Puerto Rico

1.0 Executive Summary

The following report summarizes the requirements under the Administrative Compliance Order “ACO”, Docket Number CWA-02-2015-3102, Section V-71 of the ordered provisions.

The comprehensive annual site inspection report was conducted on December 13, 2012 in the facility of AES Puerto Rico Coal-Fired Power Plant and Marine Cargo Handling Facility, located at:

State Road 3, Km. 142.0
Barrio Jobos
Guayama, Puerto Rico 00784

The comprehensive site inspection was performed by Hector Avila the Environmental Coordinator and member of the stormwater pollution team for AES-PR and Winston Esteves, PE, BCEE, QEP, CHMM, CPESC, CESSWI an independent Environmental Consultant, hired by AES-PR to assist in the site inspection, as well as provide any best practices identified in the industry to ensure that we are continuously meeting our compliance status.

This report summarizes all site findings related to the requirements identified above and it provides its recommendations to improve the program in the facility ensuring continuous compliance status.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

2.0 Background, information and areas covered under this inspection

Section 7.2 of our MSGP requires that AES-PR conduct an annual comprehensive site inspection. The annual comprehensive site inspection is intended to be a more in-depth version of the routine facility inspection. Our annual comprehensive site inspection evaluated the condition of control measures, taking into account trends observed in analytic and visual stormwater samples taken during the year, and found during routine inspections.

The inspection that was performed by AES-PR for the 2012 Annual Report covered all areas of our facility affected by the requirements of your industrial stormwater general permit, including all potential stormwater pollutant sources identified in the SWPPP, areas where control measures are used to comply with applicable effluent limits, and areas where spills and leaks have been documented in the three years prior to the annual comprehensive site inspection. In addition, our annual inspection included a review of visual stormwater monitoring data collected each quarter of the previous year and the results of the routine site inspections.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

3.0 Reporting and Record keeping “Section 7.0 of the MSGP”

3.1 Annual Report Requirements

As required under section 7.2 of our MSGP, AES-PR is required to submit an annual report to EPA that includes the findings from your Part 4.3 of the MSGP, comprehensive site inspection and any corrective action documentation as required in Part 3.4 of the MSGP. If corrective action is not yet completed at the time of submission of this annual report, you must describe the status of any outstanding corrective action(s). In addition to the information required in Parts 3.4 (Corrective Action Report) of our MSGP and 4.3.2 (Comprehensive Site Inspection Documentation) of our MSGP, AES-PR will include the following information with our annual report:

- Facility name
- NPDES permit tracking number
- Facility physical address
- Contact person name, title, and phone number

As EPA had recommended in Section 7.2 of our MSGP, AES-PR utilized the formatted report using the Annual Reporting Form provided as Appendix I of our MSGP.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

4.0 Comprehensive Site Inspections “Section 4.3, 4.3.1 & 4.3.2 of the MSGP”

4.1 Comprehensive Site Inspection Procedures

AES-PR is required to conduct annual comprehensive site inspections while we are covered under the existing ACO in accordance with sections 4.3 of the MSGP. Annual, as defined in this Part, means once during each of the following inspection periods beginning with the period you are authorized to discharge under this permit:

AES-PR is waived from having to perform a comprehensive site inspection for an inspection period, as defined in the ACO, if you obtain authorization to discharge less than three months before the end of that inspection period.

Should our coverage be administratively continued after the expiration date of this permit, AES-PR is required to continue to perform these inspections annually until we are no longer covered.

AES-PR must conduct our site inspections by qualified personnel with at least one member of our stormwater pollution prevention team participating in the comprehensive site inspections.

Our comprehensive site inspections cover all areas of the facility affected by the requirements in this ACO and MSGP, including the areas identified in the SWPPP as potential pollutant sources (see Part 5.1.3 of the MSGP) where industrial materials or activities are exposed to stormwater, any areas where control measures are used to comply with the effluent limits in Part 2 of the MSGP, and areas where spills and leaks have occurred in the past 3 years. The inspections have also included a review of monitoring data collected in accordance with Part 6.2 of the MSGP. Inspectors have considered the results of the past year's visual and analytical monitoring when planning and conducting inspections. Inspectors have examined the following:

- Industrial materials, residue, or trash that may have or could come into contact with stormwater;
- Leaks or spills from industrial equipment, drums, tanks, and other containers;
- Offsite tracking of industrial or waste materials, or sediment where vehicles enter or exit the site;
- Tracking or blowing of raw, final, or waste materials from areas of no exposure to exposed areas; and
- Control measures needing replacement, maintenance, or repair.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

Stormwater control measures required by this permit were observed to ensure that they are functioning correctly. If discharge locations are inaccessible, nearby downstream locations must be inspected.

Under the MSGP, our annual comprehensive site inspection may also be used as one of the routine inspections, as long as all components of both types of inspections are included.

4.2 Comprehensive Site Inspection Documentation

AES-PR is required to document the findings of each comprehensive site inspection and maintain this documentation onsite with our SWPPP as required in Part 5.4 of the MSGP. In addition, we are required to submit this documentation in an annual report as required in Part 7.2 of the MSGP. At a minimum, your documentation of the comprehensive site inspection must include (see the Annual Reporting Form included as Appendix I of the MSGP):

- The date of the inspection;
- The name(s) and title(s) of the personnel making the inspection;
- Findings from the examination of areas of your facility identified in Part 4.3.1 of the MSGP;
- All observations relating to the implementation of your control measures including:
 - previously unidentified discharges from the site,
 - previously unidentified pollutants in existing discharges,
 - evidence of, or the potential for, pollutants entering the drainage system;
 - evidence of pollutants discharging to receiving waters at all facility outfall(s), and the condition of and around the outfall, including flow dissipation measures to prevent scouring, and
 - additional control measures needed to address any conditions requiring corrective action identified during the inspection.
- Any required revisions to the SWPPP resulting from the inspection;
- Any incidents of noncompliance observed or a certification stating the facility is in compliance with this permit (if there is no noncompliance); and
- A statement, signed and certified in accordance with Appendix B, Subsection 11 of the MSGP.

Any corrective action required as a result of the comprehensive site inspection will be performed consistent with Part 3 of MSGP.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

5.0 Corrective Actions "Section 3.0, 3.1 and 3.2 of the MSGP"

5.1 Conditions Requiring Review and revision to Eliminate Problem

If any of the following conditions occur, AES-PR will review and revise the selection, design, installation, and implementation of our control measures to ensure that the condition is eliminated and will not be repeated in the future:

- an unauthorized release or discharge (e.g., spill, leak, or discharge of non-stormwater not authorized by this or another NPDES permit) occurs at your facility;
- a discharge violates a numeric effluent limit;
- AES-PR becomes aware, or EPA determines, that our control measures are not stringent enough for the discharge to meet applicable water quality standards;
- an inspection or evaluation of our facility by an EPA official, or local, State, or Tribal entity, determines that modifications to the control measures are necessary to meet the non-numeric effluent limits in this permit; or
- we find in your routine facility inspection, quarterly visual assessment, or comprehensive site inspection that our control measures are not being properly operated and maintained.

5.2 Conditions Requiring Review to Determine if Modifications Are Necessary

If any of the following conditions occur, AES-PR will review the selection, design, installation, and implementation of your control measures to determine if modifications are necessary to meet the effluent limits in this permit:

- construction or a change in design, operation, or maintenance at our facility significantly changes the nature of pollutants discharged in stormwater from our facility, or significantly increases the quantity of pollutants discharged; or
- the average of 4 quarterly sampling results exceeds an applicable benchmark. If less than 4 benchmark samples have been taken, but the results are such that an exceedance of the 4 quarter average is mathematically certain (i.e., if the sum of quarterly sample results to date is more than 4 times the benchmark level) this is considered a benchmark exceedance, triggering this review.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

5.3 Corrective Action Report

AES-PR is required within 24 hours of discovery of any condition listed in Parts 3.1 and 3.2 of the MSGP, to document the following information (i.e., questions 3-5 of the Corrective Actions section in the Annual Reporting Form, provided in Appendix I of the MSGP):

- Identification of the condition triggering the need for corrective action review;
- Description of the problem identified; and
- Date the problem was identified.

Within 14 days of discovery of any condition listed in Parts 3.1 and 3.2, AES-PR will document the following information (i.e., questions 7-11 of the Corrective Actions section in the Annual Reporting Form, provided in Appendix I):

- Summary of corrective action taken or to be taken (or, for triggering events identified in Part 3.2 of the MSGP where we determine that corrective action is not necessary, the basis for this determination);
- Notice of whether SWPPP modifications are required as a result of this discovery or corrective action;
- Date corrective action initiated; and
- Date corrective action completed or expected to be completed.

AES-PR will submit this documentation in an annual report as required in Part 7.2 of our MSGP and retain a copy onsite with your SWPPP as required in Part 5.4 of our MSGP.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

6.0 AES Puerto Rico “2012 Annual Comprehensive Site Inspection Report Findings and Corrective Actions”

Inspection Members and Background: The comprehensive site inspection was performed by Hector Avila the Environmental Coordinator a member of the stormwater pollution team for AES-PR and Winston Esteves, PE, BCEE, QEP, CHMM, CPESC, CESSWI an independent Environmental Consultant, hired by AES-PR to assist in the site inspection, as well as provide any best practices identified in the industry to ensure that we are continuously meeting our compliance status.

This report summarizes all site findings related to the requirements identified above and it provides its recommendations to improve the program in the facility ensuring continuous compliance status.

Findings: During the Comprehensive Annual Evaluation, AES-PR had identified 9 various findings that required attention and corrective actions, none of which were directly related to any Unauthorized Releases or direct negligence on behalf of AES-PR. In summary, the findings identified were relatively low in nature, and were corrected in a timely manner. Please note that during this period of time, AES-PR was working under an Administrative Compliance Order, and were conducting various engineering analysis with the purpose of identifying and implementing new BMP's both Structural and Non-Structural for overall improvement's to the Facility.

Corrective Actions: As required in Section 3.4 of our MSGP “Corrective Action Report”, AES-PR had completed questions 7-11 covered in the Annual Reporting form, provided in Appendix I of the MSGP. The details surrounding the findings and corrective actions can be found in Appendix 1 of this report.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

7.0 Inspections “Section 4.0, 4.1.1 and 4.1.2 of the MSGP”

7.1 Routine Facility Inspection Procedures

AES-PR will conduct routine facility inspections of all areas of the facility where industrial materials or activities are exposed to stormwater, and of all stormwater control measures used to comply with the effluent limits contained in this permit. Routine facility inspections will be conducted at least quarterly (i.e., once each calendar quarter) although in many instances, more frequent inspection (e.g., monthly) may be appropriate for some types of equipment, processes, and control measures or areas of the facility with significant activities and materials exposed to stormwater. We perform these inspections during periods when the facility is in operation. AES-PR will specify the relevant inspection schedules in your SWPPP document as required in Part 5.1.5 of the MSGP. These routine inspections have been performed by a qualified person with at least one member of our stormwater pollution prevention team participating. At least once each calendar year, the routine facility inspection will be conducted during a period when a stormwater discharge is occurring.

7.2 Routine Facility Inspection Documentation

AES-PR will document the findings of each routine facility inspection performed and maintain this documentation onsite with your SWPPP as required in Part 5.4 of the MSGP. You are not required to submit your routine facility inspection findings to EPA, unless specifically requested to do so. At a minimum, your documentation of each routine facility inspection must include:

- The inspection date and time;
- The name(s) and signature(s) of the inspector(s);
- Weather information and a description of any discharges occurring at the time of the inspection;
- Any previously unidentified discharges of pollutants from the site;
- Any control measures needing maintenance or repairs;
- Any failed control measures that need replacement;
- Any incidents of noncompliance observed; and
- Any additional control measures needed to comply with the permit requirements.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

8.0 AES-PR 2012 Q-4 Routine Facility Inspection Inspections “Section 4.0, 4.1.1 and 4.1.2 of the MSGP”

Inspection Members and Background: The Routine Facility Inspection was performed by Hector Avila the Environmental Coordinator a member of the stormwater pollution team for AES-PR and was reviewed by Winston Esteves, PE, BCEE, QEP, CHMM, CPESC, CESSWI an independent Environmental Consultant, hired by AES-PR to assist in the site inspection, as well as provide any best practices identified in the industry to ensure that we are continuously meeting our compliance status. This requirement can be found in Section 4.1.1 and 4.1.2 of our MSGP and in the Administrative Compliance Order Docket Number CWA-02-2013-3100, Section V – 19.

This report summarizes all site findings related to the requirements identified above and it provides its recommendations to improve the program in the facility ensuring continuous compliance status.

Findings: During the Comprehensive Annual Evaluation, AES-PR had identified 9 various findings that required routine maintenance and or corrective actions, none of which were directly related to any Unauthorized Releases or direct negligence on behalf of AES-PR. In summary, the findings identified were relatively low in nature, and were corrected in a timely manner. Please note that during this period of time, AES-PR was working under an Administrative Compliance Order, and were conducting various engineering analysis with the purpose of identifying and implementing new BMP's both Structural and Non-Structural for overall improvement's to the Facility.

Corrective Actions: All of the findings in documented during the Routine Facility Inspection, were items that are being addressed in the Administrative Compliance Order Docket Number CWA-02-2012-3100, and were in the process of being implemented or scheduled to be implemented. Further details of this report can be found in Appendix 2 of this report.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

9.0 Required Monitoring “Section 6.2 of the MSGP”

AES-PR’s MSGP permit includes five types of required analytical monitoring, one or more of which may apply to your discharge:

- Quarterly benchmark monitoring (see Part 6.2.1)
- Annual effluent limitations guidelines monitoring (see Part 6.2.2);
- State- or Tribal-specific monitoring (see Part 6.2.3);
- Impaired waters monitoring (see Part 6.2.4); and
- Other monitoring as required by EPA (see Part 6.2.5).

When more than one type of monitoring for the same parameter at the same outfall applies (e.g., total suspended solids once per year for an effluent limit and once per quarter for benchmark monitoring at a given outfall), you may use a single sample to satisfy both monitoring requirements (i.e., one sample satisfying both the annual effluent limit sample and one of the 4 quarterly benchmark monitoring samples).

All required monitoring must be conducted in accordance with the procedures described in Appendix B, Subsection 10.D of the MSGP.

9.1 Benchmark Monitoring

Our permit stipulates pollutant benchmark concentrations that may be applicable to your discharge. The benchmark concentrations are not effluent limitations; a benchmark exceedance, therefore, is not a permit violation. Benchmark monitoring data are primarily for your use to determine the overall effectiveness of our control measures and to assist AES-PR in knowing when additional corrective action(s) may be necessary to comply with the effluent limitations in Part 2 of the MSGP.

9.2 Benchmark Monitoring Schedule

Benchmark monitoring will be conducted quarterly, as identified in Part 6.1.7, for your first 4 full quarters of permit coverage commencing no earlier than April 1, 2009. Facilities in climates with irregular stormwater runoff, as described in Part 6.1.6 of the MSGP, may modify this quarterly schedule provided that this revised schedule is reported to EPA when the first benchmark sample is collected and reported, and that this revised schedule is kept with the facility’s SWPPP as specified in Part 5.4 of the MSGP.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

Data not exceeding benchmarks: After collection of 4 quarterly samples, if the average of the 4 monitoring values for any parameter does not exceed the benchmark, AES-PR would have fulfilled our monitoring requirements for that parameter for the permit term. For averaging purposes, use a value of zero for any individual sample parameter, analyzed using procedures consistent with Part 6.2.1.1 of the MSGP, which is determined to be less than the method detection limit. For sample values that fall between the method detection level and the quantitation limit (i.e., a confirmed detection but below the level that can be reliably quantified), use a value halfway between zero and the quantitation limit.

Data exceeding benchmarks: After collection of 4 quarterly samples, if the average of the 4 monitoring values for any parameter exceeds the benchmark, you must, in accordance with Part 3.2, review the selection, design, installation, and implementation of your control measures to determine if modifications are necessary to meet the effluent limits in this permit, and either:

- Make the necessary modifications and continue quarterly monitoring until you have completed 4 additional quarters of monitoring for which the average does not exceed the benchmark; or
- Make a determination that no further pollutant reductions are technologically available and economically practicable and achievable in light of best industry practice to meet the technology-based effluent limits or are necessary to meet the water-quality-based effluent limitations in Parts 2 of this permit, in which case you must continue monitoring once per year. You must also document your rationale for concluding that no further pollutant reductions are achievable, and retain all records related to this documentation with your SWPPP. You must also notify EPA of this determination in your next benchmark monitoring report.

In accordance with Part 3.2, you must review your control measures and perform any required corrective action immediately (or document why no corrective action is required), without waiting for the full 4 quarters of monitoring data, if an exceedance of the 4 quarter average is mathematically certain. If after modifying your control measures and conducting 4 additional quarters of monitoring, your average still exceeds the benchmark (or if an exceedance of the benchmark by the 4 quarter average is mathematically certain prior to conducting the full 4 additional quarters of monitoring), you must again review your control measures and take one of the two actions above.

Confidential Non-Disclosure Statement

This document shall not be reproduced, copied, loaned or transferred to any other person or entity directly or indirectly, or electronically, in whole or part, nor used for other purposes other than for which it is specifically furnished, without the prior written consent of AES Puerto Rico L.P.

10.0 AES-PR Q-4, Quarterly Benchmark Monitoring Analysis “Section 6.2 of the MSGP”

Inspection Members and Background: The Quarterly Benchmark Monitoring Analysis was performed by Hector Avila the Environmental Coordinator a member of the stormwater pollution team for AES-PR and was reviewed by Winston Esteves, PE, BCEE, QEP, CHMM, CPESC, CESSWI an independent Environmental Consultant, hired by AES-PR to assist in the site inspection, as well as provide any best practices identified in the industry to ensure that we are continuously meeting our compliance status. This requirement can be found in Section 6.1.3, 6.1.4, 6.1.5, 6.1.7, 6.2.1.1, 6.2.1.2, 8.0.7 (Sector Specific benchmark for steam electric power generating facilities) and Part 8.Q.6 (sector-specific for water transportation) of our MSGP and in the Administrative Compliance Order Docket Number CWA-02-2012-3100, Section V – 25 & 26.

This report summarizes all site findings related to the requirements identified above and it provides its recommendations to improve the program in the facility ensuring continuous compliance status.

Findings: During Q-4 of 2012, AES-PR only conducted sampling to outfall 002 due to the fact there was not enough rainfall to produce a measurable discharge at Outfall 003A, Outfall 003B and Outfall 004. After review of the laboratory results, it was apparent that the Iron and Aluminum levels were outside of the benchmark limits, of which were not part of our Permit limits and did not justify an exceedance to any our permit limits, as well as none of which were directly related to any Unauthorized Releases or direct negligence on behalf of AES-PR. Please note that during this period of time, AES-PR was working under an Administrative Compliance Order, and were conducting various engineering analysis with the purpose of identifying and implementing new BMP's both Structural and Non-Structural for overall improvement's to the Facility.

Corrective Actions: The Aluminum and Iron limits that were outside the Benchmark limits are being addressed with the implementation of the Structural and Non-Structural BMP's that are being implemented while under the ACO. We have already noticed that the levels in these sampling points are reducing significantly and it is expected by the full implementation of all required BMP's, these measurements be in full compliance with the benchmark standards. The full details of this report can be found in Appendix 3 of this report.

Confidential Non-Disclosure Statement

B. GENERAL INSPECTION FINDINGS

1. As part of this comprehensive site inspection, did you inspect all potential pollutant sources, including areas where industrial activity may be exposed to stormwater?
 YES NO

If NO, describe why not:

NOTE: Complete Section C of this form for each industrial activity area inspected and included in your SWPPP or as newly identified in B.2 or B.3 below where pollutants may be exposed to stormwater.

2. Did this inspection identify any stormwater or non-stormwater outfalls not previously identified in your SWPPP? YES NO

If YES, for each location, describe the sources of those stormwater and non-stormwater discharges and any associated control measures in place:

An outfall was identified receiving storm water from the truck weigh scale located north of the property. Oil leaks and falling debris from trucks can be exposed to storm water. No control measures are presently in place.

Worksheet No.7

NPDES Permit Tracking No.:

--	--	--	--	--	--	--	--	--	--	--	--	--	--

3. Did this inspection identify any sources of stormwater or non-stormwater discharges not previously identified in your SWPPP? YES NO

If YES, describe these sources of stormwater or non-stormwater pollutants expected to be present in these discharges, and any control measures in place:

- a-Runoff from north side truck weigh scale. No control measures in place.**
b-Sludge tracking from water treatment plant area, can be washed into storm water pond. Floor grating in place is not effective.

4. Did you review stormwater monitoring data as part of this inspection to identify potential pollutant hot spots? YES NO NA, no monitoring performed

If YES, summarize the findings of that review and describe any additional inspection activities resulting from this review:

Review of monitoring data did not result in identification of additional pollutant hot spots.

5. Describe any evidence of pollutants entering the drainage system or discharging to surface waters, and the condition of and around outfalls, including flow dissipation measures to prevent scouring:

Pollutants may be entering the drainage system from cooling tower area, truck weigh scale north of the property and marine dock unloading area retention tank.

6. Have you taken or do you plan to take any corrective actions, as specified in Part 3 of the permit, since your last annual report submission (or since you received authorization to discharge under this permit if this is your first annual report), including any corrective actions identified as a result of this annual comprehensive site inspection?

YES NO

If YES, how many conditions requiring review for correction action as specified in Parts 3.1 and 3.2 were addressed by these corrective actions?

0 | 9

NOTE: Complete the attached Corrective Action Form (Section D) for each condition identified, including any conditions identified as a result of this comprehensive stormwater inspection.

C. INDUSTRIAL ACTIVITY AREA SPECIFIC FINDINGS

Complete one block for each industrial activity area where pollutants may be exposed to stormwater. Copy this page for additional industrial activity areas.

In reviewing each area, you should consider:

- Industrial materials, residue, or trash that may have or could come into contact with stormwater;
- Leaks or spills from industrial equipment, drums, tanks, and other containers;
- Offsite tracking of industrial or waste materials from areas of no exposure to exposed areas; and
- Tracking or blowing of raw, final, or waste materials from areas of no exposure to exposed areas.

INDUSTRIAL ACTIVITY AREA 1:

1. Brief Description:

Gland seals on piping at the east side of the property leaking to the ground.

2. Are any control measures in need of maintenance or repair?

YES NO

3. Have any control measures failed and require replacement?

YES NO

4. Are any additional/revised control measures necessary in this area?

YES NO

If YES to any of these three questions, provide a description of the problem: (Any necessary corrective actions should be described on the attached Corrective Action Form)

Steam condensate remains in the system that needs to be drained and leaks sealed.

INDUSTRIAL ACTIVITY AREA 2:

1. Brief Description:

Dumpster containing scrap metal, drums containing used oil and a makeshift scrap yard were observed at the southeast and south sides of the steam plant.

2. Are any control measures in need of maintenance or repair?

YES NO

3. Have any control measures failed and require replacement?

YES NO

4. Are any additional/revised c necessary in this area?

YES NO

If YES to any of these three questions, provide a description of the problem: (Any necessary corrective actions should be described on the attached Corrective Action Form)

Established good housekeeping practices requiring the storage of these pollutant sources under cover should be followed.

INDUSTRIAL ACTIVITY AREA 3:

Brief Description:

Accumulations of debris and sedimentation was observed in the drainage channels at the east and south side of the steam plant.

2. Are any control measures in need of maintenance or repair?

YES NO

3. Have any control measures failed and require replacement?

YES NO

4. Are any additional/revised BMPs necessary in this area?

YES NO

If YES to any of these three questions, provide a description of the problem: (Any necessary corrective actions should be described on the attached Corrective Action Form)

Established good housekeeping practices requiring the periodic cleaning of these channels should be followed.

Worksheet No.7

NPDES Permit Tracking No.:

--	--	--	--	--	--	--	--	--	--	--	--	--	--

NOTE: Copy this page and attach additional pages as necessary

INDUSTRIAL ACTIVITY AREA 4:

1. Brief Description:

Silt fences around Agremax and coal stockpiles were not properly installed and/or were not properly maintained.

2. Are any control measures in need of maintenance or repair? YES NO

3. Have any control measures failed and require replacement? YES NO

4. Are any additional/revised BMPs necessary in this area? YES NO

If YES to any of these three questions, provide a description of the problem: (Any necessary corrective actions should be described on the attached Corrective Action Form)

The bottom portion of silt fences were not anchored to the ground. Some silt fences were knocked down.

INDUSTRIAL ACTIVITY AREA 5:

1. Brief Description:

Portable toilets for contractors were not anchored to prevent overturn by winds or impacts.

2. Are any control measures in need of maintenance or repair? YES NO

3. Have any control measures failed and require replacement? YES NO

4. Are any additional/revised BMPs necessary in this area? YES NO

If YES to any of these three questions, provide a description of the problem: (Any necessary corrective actions should be described on the attached Corrective Action Form)

Proper anchoring must be provided for portable toilets.

INDUSTRIAL ACTIVITY AREA 6:

1. Brief Description:

Sludge from the water treatment area is tracked outside of the contained area, storm water washes the tracked particles into storm water pond.

2. Are any control measures in need of maintenance or repair? YES NO

3. Have any control measures failed and require replacement? YES NO

4. Are any additional/revised BMPs necessary in this area? YES NO

If YES to any of these three questions, provide a description of the problem: (Any necessary corrective actions should be described on the attached Corrective Action Form)

Containment of the water treatment sludge handling area must be improved.

Worksheet No.7

NPDES Permit Tracking No.:

NOTE: Copy this page and attach additional pages as necessary

INDUSTRIAL ACTIVITY AREA 7:

1. Brief Description:

Pools of liquid from the cooling tower basin were observed in the ground.

2. Are any control measures in need of maintenance or repair? YES NO

3. Have any control measures failed and require replacement? YES NO

4. Are any additional/revised BMPs necessary in this area? YES NO

If YES to any of these three questions, provide a description of the problem: (Any necessary corrective actions should be described on the attached Corrective Action Form)

Drift from the cooling tower pools in the ground surface outside.

INDUSTRIAL ACTIVITY AREA 8:

1. Brief Description:

Stained surfaces were observed on the platform of the truck weigh scale located at the north side of the facility.

2. Are any control measures in need of maintenance or repair? YES NO

3. Have any control measures failed and require replacement? YES NO

4. Are any additional/revised BMPs necessary in this area? YES NO

If YES to any of these three questions, provide a description of the problem: (Any necessary corrective actions should be described on the attached Corrective Action Form)

Leaks from trucks (mostly hydrocarbons) stain the surface of the weigh scale and are carried away by storm water. A cover should be provided for this area.

INDUSTRIAL ACTIVITY AREA 9:

1. Brief Description:

Coal dust was observed at the coal unloading area in the marine dock and on top of a water collection tank suspended over the water.

2. Are any control measures in need of maintenance or repair? YES NO

3. Have any control measures failed and require replacement? YES NO

4. Are any additional/revised BMPs necessary in this area? YES NO

If YES to any of these three questions, provide a description of the problem: (Any necessary corrective actions should be described on the attached Corrective Action Form)

The coal unloading area at the marine dock should be swept after each transfer operation. The water collection tank should also be inspected accordingly.

D. CORRECTIVE ACTIONS

Complete this page for each specific condition requiring a corrective action or a review determining that no corrective action is needed. Copy this page for additional corrective actions or reviews.

Include both corrective actions that have been initiated or completed since the last annual report, and future corrective actions needed to address problems identified in this comprehensive stormwater inspection. Include an update on any outstanding corrective actions that had not been completed at the time of your previous annual report.

1. Corrective Action # **[0|1]** of **[0|9]** for this reporting period.

2. Is this corrective action:

- An update on a corrective action from a previous annual report; or
 A new corrective action?

3. Identify the condition(s) triggering the need for this review:

- Unauthorized release or discharge
 Numeric effluent limitation exceedance
 Control measures inadequate to meet applicable water quality standards
 Control measures inadequate to meet non-numeric effluent limitations
 Control measures not properly operated or maintained
 Change in facility operations necessitated change in control measures
 Average benchmark value exceedance
 Other (describe): _____

4. Briefly describe the nature of the problem identified:

Gland seals on piping at the east side of the property leaking to the ground.

5. Date problem identified: **[| | / | | / |2|0|1|2|**

6. How problem was identified:

- Comprehensive site inspection
 Quarterly visual assessment
 Routine facility inspection
 Benchmark monitoring
 Notification by EPA or State or local authorities
 Other (describe): _____

7. Description of corrective action(s) taken or to be taken to eliminate or further investigate the problem (e.g., describe modifications or repairs to control measures, analyses to be conducted, etc.) or if no modifications are needed, basis for that determination:

Repair gland seals.

8. Did/will this corrective action require modification of your SWPPP? YES NO

9. Date corrective action initiated: **[1|2| / |1|7| / |2|0|1|2|**

10. Date correction action completed: **[| | / | | / | | | |** or expected to be completed: **[0|1| / |3|1| / |2|0|1|3|**

11. If corrective action not yet completed, provide the status of corrective action at the time of the comprehensive site inspection and describe any remaining steps (including timeframes associated with each step) necessary to complete corrective action:

Corrective actions will be incorporated in the activities of the present ACO.

Worksheet No.7

NPDES Permit Tracking No.:

--	--	--	--	--	--	--	--	--	--	--	--	--

D. CORRECTIVE ACTIONS

Complete this page for each specific condition requiring a corrective action or a review determining that no corrective action is needed. Copy this page for additional corrective actions or reviews.

Include both corrective actions that have been initiated or completed since the last annual report, and future corrective actions needed to address problems identified in this comprehensive stormwater inspection. Include an update on any outstanding corrective actions that had not been completed at the time of your previous annual report.

1. Corrective Action # **[0|2]** of **[0|9]** for this reporting period.

2. Is this corrective action:

- An update on a corrective action from a previous annual report; or
- A new corrective action?

3. Identify the condition(s) triggering the need for this review:

- Unauthorized release or discharge
- Numeric effluent limitation exceedance
- Control measures inadequate to meet applicable water quality standards
- Control measures inadequate to meet non-numeric effluent limitations
- Control measures not properly operated or maintained
- Change in facility operations necessitated change in control measures
- Average benchmark value exceedance
- Other (describe): Pollutant sources exposed to storm water

4. Briefly describe the nature of the problem identified:

Dumpster containing scrap metal, drums containing used oil and a makeshift scrap yard were observed at the southeast and south sides of the steam plant.

5. Date problem identified: **[] / [] / [2|0|1|2]**

6. How problem was identified:

- Comprehensive site inspection
- Quarterly visual assessment
- Routine facility inspection
- Benchmark monitoring
- Notification by EPA or State or local authorities
- Other (describe): _____

7. Description of corrective action(s) taken or to be taken to eliminate or further investigate the problem (e.g., describe modifications or repairs to control measures, analyses to be conducted, etc.) or if no modifications are needed, basis for that determination:

Provide cover following established good housekeeping practices.

8. Did/will this corrective action require modification of your SWPPP? YES NO

9. Date corrective action initiated: **[1|2] / [1|7] / [2|0|1|2]**

10. Date correction action completed: **[] / [] / []** or expected to be completed: **[0|1] / [3|1] / [2|0|1|3]**

11. If corrective action not yet completed, provide the status of corrective action at the time of the comprehensive site inspection and describe any remaining steps (including timeframes associated with each step) necessary to complete corrective action:

Corrective actions will be incorporated in the activities of the present ACO.

--	--	--	--	--	--	--	--	--	--	--	--

D. CORRECTIVE ACTIONS

Complete this page for each specific condition requiring a corrective action or a review determining that no corrective action is needed. Copy this page for additional corrective actions or reviews.

Include both corrective actions that have been initiated or completed since the last annual report, and future corrective actions needed to address problems identified in this comprehensive stormwater inspection. Include an update on any outstanding corrective actions that had not been completed at the time of your previous annual report.

1. Corrective Action # **0|3** of **0|9** for this reporting period.

2. Is this corrective action:

- An update on a corrective action from a previous annual report; or
- A new corrective action?

3. Identify the condition(s) triggering the need for this review:

- Unauthorized release or discharge
- Numeric effluent limitation exceedance
- Control measures inadequate to meet applicable water quality standards
- Control measures inadequate to meet non-numeric effluent limitations
- Control measures not properly operated or maintained
- Change in facility operations necessitated change in control measures
- Average benchmark value exceedance
- Other (describe): _____

4. Briefly describe the nature of the problem identified:

Accumulations of debris and sedimentation was observed in the drainage channels at the east and south side of the steam plant.

5. Date problem identified: **| | / | | / |2|0|1|2**

6. How problem was identified:

- Comprehensive site inspection
- Quarterly visual assessment
- Routine facility inspection
- Benchmark monitoring
- Notification by EPA or State or local authorities
- Other (describe): _____

7. Description of corrective action(s) taken or to be taken to eliminate or further investigate the problem (e.g., describe modifications or repairs to control measures, analyses to be conducted, etc.) or if no modifications are needed, basis for that determination:

Drainage channels should be routinely cleared.

8. Did/will this corrective action require modification of your SWPPP? YES NO

9. Date corrective action initiated: **|1|2| / |1|7| / |2|0|1|2**

10. Date correction action completed: **| | / | | / | | or expected to be completed: **|0|1| / |3|1| / |2|0|1|3****

11. If corrective action not yet completed, provide the status of corrective action at the time of the comprehensive site inspection and describe any remaining steps (including timeframes associated with each step) necessary to complete corrective action:

Corrective actions will be incorporated in the activities of the present ACO.

Worksheet No.7

NPDES Permit Tracking No.:

A horizontal number line with ten equally spaced tick marks. The first tick mark is at the origin. A point labeled 'c' is located between the third and fourth tick marks.

D. CORRECTIVE ACTIONS

Complete this page for each specific condition requiring a corrective action or a review determining that no corrective action is needed. Copy this page for additional corrective actions or reviews.

Include both corrective actions that have been initiated or completed since the last annual report, and future corrective actions needed to address problems identified in this comprehensive stormwater inspection. Include an update on any outstanding corrective actions that had not been completed at the time of your previous annual report.

1. Corrective Action # **0 4** of **0 9** for this reporting period.

- 2. Is this corrective action:**

- An update on a corrective action from a previous annual report; or
 A new corrective action?

- 3. Identify the condition(s) triggering the need for this review:**

- Unauthorized release or discharge
 - Numeric effluent limitation exceedance
 - Control measures inadequate to meet applicable water quality standards
 - Control measures inadequate to meet non-numeric effluent limitations
 - Control measures not properly operated or maintained
 - Change in facility operations necessitated change in control measures
 - Average benchmark value exceedance
 - Other (describe): _____

4. Briefly describe the nature of the problem identified:

Silt fences around Agremax and coal stockpiles were not properly installed and/or were not properly maintained.

5. Date problem identified: | | | / | / | 2 | 0 | 1 | 2 |

- 6. How problem was identified:**

- Comprehensive site inspection
 - Quarterly visual assessment
 - Routine facility inspection
 - Benchmark monitoring
 - Notification by EPA or State or local authorities
 - Other (describe):

7. Description of corrective action(s) taken or to be taken to eliminate or further investigate the problem (e.g., describe modifications or repairs to control measures, analyses to be conducted, etc.) or if no modifications are needed, basis for that determination:

Silt fences should be properly installed and maintained following established guidelines.

8. Did/will this corrective action require modification of your SWPPP? YES NO

9. Date corrective action initiated: **1|2| / |1|7| / |2|0|1|2|**

10. Date correction action completed: | | / | / | | or expected to be completed: | 0 | 1 | / | 3 | 1 | / | 2 | 0 | 1 | 3 |

11. If corrective action not yet completed, provide the status of corrective action at the time of the comprehensive site inspection and describe any remaining steps (including timeframes associated with each step) necessary to complete corrective action:

Corrective actions will be incorporated in the activities of the present ACO.

D. CORRECTIVE ACTIONS

Complete this page for each specific condition requiring a corrective action or a review determining that no corrective action is needed. Copy this page for additional corrective actions or reviews.

Include both corrective actions that have been initiated or completed since the last annual report, and future corrective actions needed to address problems identified in this comprehensive stormwater inspection. Include an update on any outstanding corrective actions that had not been completed at the time of your previous annual report.

1. Corrective Action # **0|5** of **0|9** for this reporting period.

2. Is this corrective action:

- An update on a corrective action from a previous annual report; or
- A new corrective action?

3. Identify the condition(s) triggering the need for this review:

- Unauthorized release or discharge
- Numeric effluent limitation exceedance
- Control measures inadequate to meet applicable water quality standards
- Control measures inadequate to meet non-numeric effluent limitations
- Control measures not properly operated or maintained
- Change in facility operations necessitated change in control measures
- Average benchmark value exceedance
- Other (describe): Pollutant sources may be exposed to storm water

4. Briefly describe the nature of the problem identified:

Portable toilets for contractors were not anchored to prevent overturn by winds or impacts.

5. Date problem identified: **| | / | | / 2 0 1 2**

6. How problem was identified:

- Comprehensive site inspection
- Quarterly visual assessment
- Routine facility inspection
- Benchmark monitoring
- Notification by EPA or State or local authorities
- Other (describe): _____

7. Description of corrective action(s) taken or to be taken to eliminate or further investigate the problem (e.g., describe modifications or repairs to control measures, analyses to be conducted, etc.) or if no modifications are needed, basis for that determination:

Properly anchoring must be provided for portable toilets.

8. Did/will this corrective action require modification of your SWPPP? YES NO

9. Date corrective action initiated: **1 2 / 1 7 / 2 0 1 2**

10. Date correction action completed: **| | / | | / | | |** or expected to be completed: **0 1 / 3 1 / 2 0 1 3**

11. If corrective action not yet completed, provide the status of corrective action at the time of the comprehensive site inspection and describe any remaining steps (including timeframes associated with each step) necessary to complete corrective action:

Corrective actions will be incorporated in the activities of the present ACO.

Include both corrective actions that have been initiated or completed since the last annual report, and future corrective actions needed to address problems identified in this comprehensive stormwater inspection. Include an update on any outstanding corrective actions that had not been completed at the time of your previous annual report.

1. Corrective Action # **0 | 6** of **0 | 9** for this reporting period.

2. Is this corrective action:

- An update on a corrective action from a previous annual report; or
 A new corrective action?

3. Identify the condition(s) triggering the need for this review:

- Unauthorized release or discharge
 Numeric effluent limitation exceedance
 Control measures inadequate to meet applicable water quality standards
 Control measures inadequate to meet non-numeric effluent limitations
 Control measures not properly operated or maintained
 Change in facility operations necessitated change in control measures
 Average benchmark value exceedance
 Other (describe): Control measures not adequate

4. Briefly describe the nature of the problem identified:

Sludge from the water treatment area is tracked outside of the contained area, storm water washes the tracked particles into storm water pond.

5. Date problem identified: **1 | 2 | / | 1 | 7 | / | 2 | 0 | 1 | 2**

6. How problem was identified:

- Comprehensive site inspection
 Quarterly visual assessment
 Routine facility inspection
 Benchmark monitoring
 Notification by EPA or State or local authorities
 Other (describe): _____

7. Description of corrective action(s) taken or to be taken to eliminate or further investigate the problem (e.g., describe modifications or repairs to control measures, analyses to be conducted, etc.) or if no modifications are needed, basis for that determination:

Containment of the water treatment sludge handling area must be improved.

8. Did/will this corrective action require modification of your SWPPP? YES NO

9. Date corrective action initiated: **1 | 2 | / | 1 | 7 | / | 2 | 0 | 1 | 2**

10. Date correction action completed: **| | | | |** or expected to be completed: **0 | 3 | / | 3 | 1 | / | 2 | 0 | 1 | 3**

11. If corrective action not yet completed, provide the status of corrective action at the time of the comprehensive site inspection and describe any remaining steps (including timeframes associated with each step) necessary to complete corrective action:

Corrective actions will be incorporated in the activities of the present ACO.

Include both corrective actions that have been initiated or completed since the last annual report, and future corrective actions needed to address problems identified in this comprehensive stormwater inspection. Include an update on any outstanding corrective actions that had not been completed at the time of your previous annual report.

1. Corrective Action # **0|7** of **0|9** for this reporting period.

2. Is this corrective action:

- An update on a corrective action from a previous annual report; or
- A new corrective action?

3. Identify the condition(s) triggering the need for this review:

- Unauthorized release or discharge
- Numeric effluent limitation exceedance
- Control measures inadequate to meet applicable water quality standards
- Control measures inadequate to meet non-numeric effluent limitations
- Control measures not properly operated or maintained
- Change in facility operations necessitated change in control measures
- Average benchmark value exceedance
- Other (describe): _____

4. Briefly describe the nature of the problem identified:

Pools of liquid from the cooling tower basin were observed in the ground.

5. Date problem identified: **1|2| / |1|7| / |2|0|1|2**

6. How problem was identified:

- Comprehensive site inspection
- Quarterly visual assessment
- Routine facility inspection
- Benchmark monitoring
- Notification by EPA or State or local authorities
- Other (describe): _____

7. Description of corrective action(s) taken or to be taken to eliminate or further investigate the problem (e.g., describe modifications or repairs to control measures, analyses to be conducted, etc.) or if no modifications are needed, basis for that determination:

Drift from the cooling tower pools in the ground surface outside. Secondary containment must be provided around the cooling tower.

8. Did/will this corrective action require modification of your SWPPP? YES NO

9. Date corrective action initiated: **1|2| / |1|7| / |2|0|1|2**

10. Date correction action completed: **/ /** or expected to be completed: **0|9| / |2|8| / |2|0|1|3**

11. If corrective action not yet completed, provide the status of corrective action at the time of the comprehensive site inspection and describe any remaining steps (including timeframes associated with each step) necessary to complete corrective action:

Include both corrective actions that have been initiated or completed since the last annual report, and future corrective actions needed to address problems identified in this comprehensive stormwater inspection. Include an update on any outstanding corrective actions that had not been completed at the time of your previous annual report.

1. Corrective Action # **0|8** of **0|9** for this reporting period.

2. Is this corrective action:

- An update on a corrective action from a previous annual report; or
- A new corrective action?

3. Identify the condition(s) triggering the need for this review:

- Unauthorized release or discharge
- Numeric effluent limitation exceedance
- Control measures inadequate to meet applicable water quality standards
- Control measures inadequate to meet non-numeric effluent limitations
- Control measures not properly operated or maintained
- Change in facility operations necessitated change in control measures
- Average benchmark value exceedance
- Other (describe): _____

4. Briefly describe the nature of the problem identified:

Stained surfaces were observed on the platform of the truck weigh scale located at the north side of the facility.

5. Date problem identified: **1|2 / 1|7 / 2|0|1|2**

6. How problem was identified:

- Comprehensive site inspection
- Quarterly visual assessment
- Routine facility inspection
- Benchmark monitoring
- Notification by EPA or State or local authorities
- Other (describe): _____

7. Description of corrective action(s) taken or to be taken to eliminate or further investigate the problem (e.g., describe modifications or repairs to control measures, analyses to be conducted, etc.) or if no modifications are needed, basis for that determination:

Provide cover for the truck weigh scale.

8. Did/will this corrective action require modification of your SWPPP? YES NO

9. Date corrective action initiated: **1|2 / 1|7 / 2|0|1|2**

10. Date correction action completed: **/ /** or expected to be completed: **0|6 / 3|0 / 2|0|1|3**

11. If corrective action not yet completed, provide the status of corrective action at the time of the comprehensive site inspection and describe any remaining steps (including timeframes associated with each step) necessary to complete corrective action:

Complete this page for each specific condition requiring a corrective action or a review determining that no corrective action is needed. Copy this page for additional corrective actions or reviews.

Include both corrective actions that have been initiated or completed since the last annual report, and future corrective actions needed to address problems identified in this comprehensive stormwater inspection. Include an update on any outstanding corrective actions that had not been completed at the time of your previous annual report.

1. Corrective Action # **0|9** of **0|9** for this reporting period.

- 2. Is this corrective action:**

- An update on a corrective action from a previous annual report; or
 A new corrective action?

- 3. Identify the condition(s) triggering the need for this review:**

- Unauthorized release or discharge
 - Numeric effluent limitation exceedance
 - Control measures inadequate to meet applicable water quality standards
 - Control measures inadequate to meet non-numeric effluent limitations
 - Control measures not properly operated or maintained
 - Change in facility operations necessitated change in control measures
 - Average benchmark value exceedance
 - Other (describe): _____

- 4. Briefly describe the nature of the problem identified:**

Coal dust was observed at the coal unloading area in the marine dock and on top of a water collection tank suspended over the water.

5. Date problem identified: 1 / 2012

- 6. How problem was identified:**

- Comprehensive site inspection
 - Quarterly visual assessment
 - Routine facility inspection
 - Benchmark monitoring
 - Notification by EPA or State or local authorities
 - Other (describe): _____

7. Description of corrective action(s) taken or to be taken to eliminate or further investigate the problem (e.g., describe modifications or repairs to control measures, analyses to be conducted, etc.) or if no modifications are needed, basis for that determination:

The coal unloading area at the marine dock should be swept after each transfer operation. The water collection tank should also be inspected accordingly.

8. Did/will this corrective action require modification of your SWPPP? YES NO

9. Date corrective action initiated: **1|2| / |1|7| / |2|0|1|2|**

10. Date correction action completed: | | / | / | | | | or expected to be completed: | 1 | 2 / | 3 | 1 / | 2 | 0 | 1 | 2

11. If corrective action not yet completed, provide the status of corrective action at the time of the comprehensive site inspection and describe any remaining steps (including timeframes associated with each step) necessary to complete corrective action:

Corrective actions will be incorporated in the activities of the present ACO.

Worksheet No.7

NPDES Permit Tracking No.:

E. ANNUAL REPORT CERTIFICATION

1. Compliance Certification

Do you certify that your annual inspection has met the requirements of Part 4.3 of the permit, and that, based upon the results of this inspection, to the best of your knowledge, you are in compliance with the permit? YES NO

If NO, summarize why you are not in compliance with the permit:

2. Annual Report Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Inspector's Qualifications	Engineer			
Weather Information				
Weather at time of this inspection? <input type="checkbox"/> Clear <input checked="" type="checkbox"/> Cloudy <input type="checkbox"/> Rain <input type="checkbox"/> Sleet <input type="checkbox"/> Fog <input type="checkbox"/> Snow <input type="checkbox"/> High Winds <input type="checkbox"/> Other: Temperature: <i>80°F</i>				
Have any previously unidentified discharges of pollutants occurred since the last inspection? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If yes, describe:				
Are there any discharges occurring at the time of inspection? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If yes, describe:				

Control Measures

- Number the structural stormwater control measures identified in your SWPPP on your site map and list them below (add as many control measures as are implemented on-site). Carry a copy of the numbered site map with you during your inspections. This list will ensure that you are inspecting all required control measures at your facility.
- Describe corrective actions initiated, date completed, and note the person that completed the work in the Corrective Action Log.

	Structural Control Measure	Control Measure is Operating Effectively?	If No, In Need of Maintenance, Repair, or Replacement?	Corrective Action Needed and Notes (identify needed maintenance and repairs, or any failed control measures that need replacement)
1	Water Treatment Berm	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	
2	Coal Pile Run-off Sediment trap	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input checked="" type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	Cleaning and maintenance in the sediment trap is in process. The sediment material is accumulated in bag filters in the inactive coal pile area.
3	Limestone Dome	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	Rolling doors is working properly.
4	Agremax Pile Silt Fence	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input checked="" type="checkbox"/> Replacement	Some portions needs to be replaced.
5	Oil Separator Heavy Equipment Shop	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	
6	Fuel Oil Secondary Containment	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	Secondary containment area was cleaned.
7	Oil Drum Storage Shed	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	
8	Soda Ash Secondary Containment	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	
9	Acid/Caustic Secondary	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance	

	Structural Control Measure	Control Measure is Operating Effectively?	If No, In Need of Maintenance, Repair, or Replacement?	Corrective Action Needed and Notes (identify needed maintenance and repairs, or any failed control measures that need replacement)
	Containment		<input type="checkbox"/> Repair <input type="checkbox"/> Replacement	
10	Marine Dock Wash Holding Tank	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	
11		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	
12		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	
13		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	
14		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Maintenance <input type="checkbox"/> Repair <input type="checkbox"/> Replacement	

Areas of Industrial Materials or Activities exposed to stormwater

Below are some general areas that should be assessed during routine inspections. Customize this list as needed for the specific types of industrial materials or activities at your facility.

	Area/Activity	Inspected?	Controls Adequate (appropriate, effective, and operating)?	Corrective Action Needed and Notes
1	Material loading/unloading and storage areas (Agremax, Limestone, Coal Storages)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Erosion and sediment control it's required. Tire wash for the heavy equipment it's required to avoid tracking. Jersey barriers were installed at active coal pile to avoid erosion. More sprinkles and wind barriers are installed to control fugitive dust in the ash loading area.
2	Heavy Equipment operations and maintenance areas	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	General housekeeping was done. Aggregate material was used for stabilization.
3	Fueling areas (Heavy Equipment Fueling and Storage Tank Unloading)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Secondary containment in the fueling area it's required.
4	Outdoor vehicle and equipment washing areas	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
5	Waste handling and disposal areas	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
6	Erodible (Coal Pile, Agremax Pile)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	More controls for erodible it's required around storm water conveyance to avoid sedimentation on the channels.
7	Non-stormwater/ illicit connections	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	No illicit connection was found.
8	Dust generation and vehicle tracking	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Water truck and swapper are used on all facilities roads to avoid tracking. Sprinkles are used on aggregate piles to avoid dust.
9	Water Treatment Area	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Secondary containment at cooling tower and back side of water treatment building it's required.

	Area/Activity	Inspected?	Controls Adequate (appropriate, effective, and operating)?	Corrective Action Needed and Notes
10	Power Block Area	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Secondary containment for the urea mixing and loading area it's required. Construction for a berm and spill equipment will be installed during 1Q2013.
11	Administration Building Area	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
12	2 Million and 18 Million Pond Area	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Bypass underground channel needs to be modified to make it functional.
13	Marine Dock Area	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
14	Stormwater Sample Point 002	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	BMP required to avoid aggregate material get in to the outfall.
15	Stormwater Sample Point 003A	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
16	Stormwater Sample Point 003B	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
17	Stormwater Sample Point 004	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	

Non-Compliance

Describe any incidents of non-compliance observed and not described above:

All non-compliance issues are included in the Administrative Consent Order (ACO). All this issues are addressing in accordance with the ACO.

Additional Control Measures

Describe any additional control measures needed to comply with the permit requirements:

Additional control measures will be included in the Engineering Analysis in accordance with the ACO.

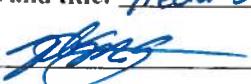

Notes

Use this space for any additional notes or observations from the inspection:

CERTIFICATION STATEMENT

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

Print name and title: Hector M. Avila / Environmental Coordinator

Signature:  Date: 12/27/12

Benchmark Monitoring

December 2012

Bi-Monthly Status Report No.7
Administrative Compliance Order
AES-PR Coal Fired Power Plant
Docket Number CWA-02-2012-3100

Benchmark Monitoring Results

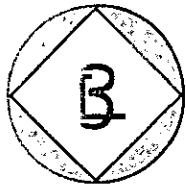

Summary Table

*Receiving water hardness > 250 mg/L

Parameter	Benchmark Values	Outfall 002	Outfall 003A	Outfall 003B	Outfall 004
		December 14, 2012	December 14, 2012	December 14, 2012	December 14, 2012
Aluminum	0.75	40.6	-	-	-
Iron	1.0	43.6	-	-	-
Lead	0.262*	0.058	-	-	-
Zinc	0.26*	0.178	-	-	-

Note: Outfalls 003A, 003B and 004 were not sampled - not enough rainfall to produce a discharge.

All results in mg/L; **bold numbers** indicate results over benchmark values.

BECKTON ENVIRONMENTAL
LABORATORIES, INC.

REPORT OF ANALYSIS

ATTENTION: Mr. Héctor Ávila
COMPANY: AES Puerto Rico - Guayama

DATE: December 14, 2012

CONTRACT: AES - Guayama

LAB. SAMPLE ID: BEL-1205603
SAMPLE COLLECTED BY: Client (H. Ávila)
DATE RECEIVED: 12/04/12

SAMPLE DATE: 12/03/12
TIME: 1:00PM

DESCRIPTION: Stormwater 004
LAB. FILE ID: 1205603
MATRIX: Water

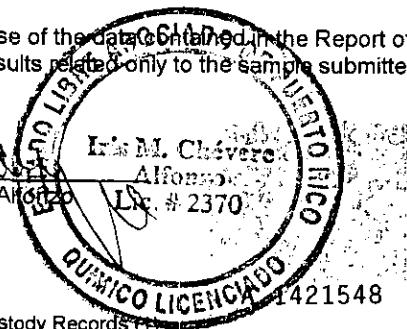

PARAMETER	EPA METHOD	SAMPLE TYPE	UNITS	BEL-1205603	METHOD DETECTION LIMIT	ANALYST	DATE ANALYZED

Quarterly Visual Assessments

October - December 2012

MSGP Quarterly Visual Assessment Form

(Complete a separate form for each outfall you assess)

Name of Facility: AES PR

NPDES Tracking No.

Outfall Name: 002

"Substantially Identical Outfall"? No Yes

Person(s)/Title(s) collecting sample: Hector M. Ariz

Person(s)/Title(s) examining sample: Hector M. Ariz

Date & Time Discharge Began: 12/03/12
12:50pm

Date & Time Sample Collected: 12/03/12
1:00pm

Date & Time Sample Examined: 12/03/12
1:30pm
Note: Samples must be examined within an hour.

Substitute Sample? No Yes (identify quarter/year when sample was originally scheduled to be collected):

Nature of Discharge: Rainfall Snowmelt

If rainfall: Rainfall Amount: 0.22 inches Previous Storm Ended > 72 hours Yes No* (explain): Rainfall occurs but no discharge.

Parameter

Color None Other (describe): gray

Odor None Musty Sewage Sulfur Sour Petroleum/Gas _____
 Solvents Other (describe):

Clarity Clear Slightly Cloudy Cloudy Opaque Other

Floating Solids No Yes (describe):

Settled Solids** No Yes (describe): aggregate material

Suspended Solids No Yes (describe):

Foam (gently shake sample) No Yes (describe):

Oil Sheen None Flecks Globs Sheen Slick
 Other (describe):

Other Obvious Indicators of Stormwater Pollution No Yes (describe):

* The 72-hour interval can be waived when the previous storm did not yield a measurable discharge or if you are able to document (attach applicable documentation) that less than a 72-hour interval is representative of local storm events during the sampling period.

** Observe for settled solids after allowing the sample to sit for approximately one-half hour.

Detail any concerns, additional comments, descriptions of pictures taken, and any corrective actions taken below (attach additional sheets as necessary). Insert details

Certification by Facility Responsible Official (Refer to MSGP Subpart 11 Appendix B for Signatory Requirements)

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted.
